

Dr. Daphna Yasova Barbeau is a neonatal intensive care physician for Envision Physician Services in Davie, Florida. She is the director of Neonatal Neurodevelopment and Palliative Care at HCA University Hospital. Professional passions include infant neurodevelopment, prenatal counseling, palliative care and family integrated care. Dr. Barbeau is writing a series of books for NICU infants, working with the National Curriculum for critical conversations in the NICU, and she is a board member of the National Family Centered Care TaskForce. In addition, she is the co-host of The Incubator Podcast. Dr. Barbeau was raised in Palm Harbor, Florida and completed her medical, pediatric and neonatal training at the University of Florida, where she was also a chief resident. When not in the hospital, she is hanging out with her husband and daughter. They enjoy crafting, nature hikes, swimming, biking and filming cooking videos.
