About PAC/LAC

The Perinatal Advisory Council: Leadership, Advocacy and Consultation (PAC/LAC) has been a leading maternal and child health organization since its incorporation as a non-profit agency in 1981. PAC/LAC's mission is to improve perinatal health outcomes by providing leadership, education and support to professionals and systems caring for women and their families. Children's health and well-being start with a healthy pregnancy and the events that occur during an infant's first few hours of life. PAC/LAC strives to make those first health experiences the best by ensuring that pregnant women, babies, and families are cared for by the most competent professionals in well-equipped health care settings. PAC/LAC has a long-standing reputation of excellence in the community for our work with hospitals and health care professionals.

As a continued supporter of PAC/LAC, you will gain access to:

- a broad spectrum of individuals and organizations in the maternal child health community including healthcare professionals, hospitals, community-based organizations, health clinics, health plans and public health organizations.
- cutting-edge research and information regarding perinatal care.
- on-demand, customized expert consultation, advice and resources on all topics related to perinatal care, hospital practices, policies & procedures.
- education and networking plus access to the leaders who are making a difference in perinatal care.

Objectives

- Name two takeaways from the keynote address presented.
- Discuss ways in which we can improve breastfeeding success with an at-risk infant with hyperbilirubinemia.
- As a healthcare provider how can you help families better prepare for potential disasters.
- Describe signs and symptoms of staff burnout and fatigue.

About the Conference

This event allows for the important dissemination of new and emerging clinical practice standards as well as an opportunity to discuss health-related issues affecting the perinatal community. This one-day conference will occur on May 25, 2023 and will address many of the most pressing perinatal issues in the healthcare community focusing on current neonatal and obstetrical topics. The program is designed for perinatal nurses, pediatricians, obstetricians, neonatologists, hospital administrators, social workers, health educators, and other professionals responsible for the care of mothers and/or newborns. Topics presented will explore areas of rapid change and significant influence on the practice of perinatal and neonatal care, with an emphasis on optimizing outcomes for mother and infant.
